BAR

Explica cómo se transmite el VIH, describe y evalúa los métodos de prevención y los tratamientos disponibles, aconseja cómo sobrellevar los efectos emocionales de la infección, y habla sobre las consideraciones financieras y jurídicas.

4. Jarvis, Robert M. **Aids law in a nutshell.** 2nd ed. St. Paul Minn.: West Publishing Co., 1996.

R

344.043967

JAR

This book aims to present in short and readable fashion, the broad outlines of the law's response to the AIDS crisis.

5. Wright, John W. **The best hospitals in America.** 2nd ed. New York : Gale Research Inc., 1995.

R

362.1

WRI

This is a directory of specialized research and advanced-treatment facilities. It also tells patients what to look for in a hospital and how to judge the care given. Each entry includes a narrative section on the history, special facilities, programs, and research done at the institution.

6. Verghese, Abraham. **My own country: a doctor's story of a town and its people in the Age of AIDS.** India : Frank Bros. & Co., 1994.

362.1

VER

In Tennessee, the town of Johnson City saw its first AIDS patient in August 1985. Abraham Verghese, a young Indian doctor specializing in infectious diseases who became, by necessity, the local AIDS expert, recounts this experience in this book.

7. Ottomanelli, Gennaro. **HIV infection and intravenous drug use.** Connecticut : Praeger, 1992.

614.5993

OTT

The author presents sections on historical background, behavioral antecedents, virology, immunology, incidence, prevalence, HIV testing, treatment, counseling, confidentiality, methodological issues, and scientific findings.

8. **Aids and intravenous drug use: future directions for community-based prevention research.** National Institute on Drug Abuse. Maryland : NIDA, 1990.

362.293

AID

These monographs are based on papers and discussion from a technical review on AIDS and intravenous drug abuse that took place on February 25 and 26, 1988 in Rockville, MD. They focus on the prevention of HIV transmission among intravenous (IV) drug abusers, from drug abusers to their sexual partners and other relevant findings.
